TO: - Biren Enterprise, Surat.

Kind Attention: - Mr. Tejas bhatiya (D-FLTS)

Subject: Excellent performance of Shell Gadus S5V 100 2 in Dry Screw Vacuum pump application @2800 RPM.

We are pleased to inform you that we are happily using Shell Gadus S5V 100 2 since last 8 month at Sachin Plant and have given us an outstanding performance in our machine for which the details are mentioned below.

Type of machines	OEM name	No. of machines
Vacuum Pump	SWAM	04

By the performance of Shell Gadus S5V 100 2, we are fully satisfied and this product has given us continuous availability of our equipment without any downtime due to lubricant issues, we expect further increment of life of our machines.

- 3X time bearing life then previous bearing life.
- Higher pump reliability.
- Low maintenance/repair cost.
- Excellent Bearing protection and low Bearing failure issue.
- Increase Pump Life.
- Saving of Rs: 12275/-per machine/ year

Looking performance of Shell Gadus S5V 100 2, in terms of reduction in bearing failure and maintenance cost and production down time, we expected increasing machine running hours and low maintenance.

Based on current Grease consumption saving and benefit we will plan to convert all our pumps with this product for better performance in future.

Best Regards,
