### TO WHOM SO EVER IT MAY CONCERN

Kind Attention: Mr. Mehul Patel

Biren enterprises, Surat

Authorized Distributor for Shell Lubricants.

Subject: **Double** the oil life, **Reduce** the maintenance cost and downtime of **CHICAGO PNUMATICS SS 180 P Screw compressor** with the help of **Shell Corena S4 R**.

We are pleased to inform you that we are receiving about 8000hours of drain interval by using Shell Corena S4 R 68 in our rotary screw compressor of CHICAGO PNUMATICS SS 180 P model, Based on your recommendation. We shifted from kluber summit PS200 to Shell Corena S4 R.

Previously we were using lubricant name. We were changing Lubricant at 4000 hours and that time we change our separator and oil filter. Even after shifting to Shell Corena S4 R 68, we are receiving 8000 hours oil life with 7500 hours separator life. We are extremely satisfied with the performance of Shell Corena S4 R 68, In short with Shell Corena S4 R we got,

**1]8000 hours oil life without any failure [Double the oil life] - Still running**

**2] 7500 hours separator life [previously change interval was 4000 hours]**

Getting double oil drain interval at much lesser cost has given us substantial saving. Thus we are planning to shift our remaining compressor also on Shell Corena S4 R 68. We look forward to a long term relationship with **Shell Lubricants & Biren Enterprises** and we appreciate the **Services being provided** by you.

Thanking you
